

CAPABILITIES STATEMENT

PHASE II MISSION

Meet our public and private sector client needs with resources extant in the veteran and military family member community.

OUR STORY

The Phase II corporate culture is built on passion for helping Veterans and their Families find their way as they transition from Service into the second phase of their professional lives. Our founders are veterans and community leaders with extensive professional networks. Phase II is not a company built on a specific niche; rather our business lines are defined by the talent pool and the needs of the market.

BUSINESS LINES

Government Contracting – DoD Subject Matter Experts (SME) levels II and III; Professional and Technical Support Services provided by Cleared and Certified Professionals.

- Cleared and known Subject Matter Experts (SME levels I - IV) support providing Program and Project Management, Program Planning and Scheduling, Technical, and Organizational Analysis and Support
- Program, Planning, Budgeting, and Execution System (PPBES) SME III/IV support
- Risk Management Framework/Information Assurance (formerly Defense Information Assurance Certification and Accreditation Process (DIACAP)) services from cradle to grave including monthly updates and more
- Cleared Information Technology, Cyber, and Telecommunications Analysts, Administrators, Engineers, and Architects with commercial and DoD recognized certifications
- Cleared Electronic Warfare SME's levels I - IV

Business Development Support for Government Contractors

– Business Development is a process or a campaign rather than a sequence of discrete events. It is a long-term endeavor that ties your strategic planning activities and market positioning to the requirements and resources (e.g. funding) of the customer through active and thorough capture planning, ultimately resulting in winning the opportunity. In pursuit of these aims, Phase II offers:

- Linking strategic planning activities and market positioning to capture planning and execution
- Advice on customer relations and contact planning
- Assistance identifying and qualifying new opportunities
- Assistance identifying addressable program funding and possible acquisition strategies
- Assistance with competitor analysis
- Assistance with bid/no-bid decisions
- Developing win strategies and supporting win themes that create value for the customer and drive deliverable solutions for the proposal team
- Active engagement in the proposal color team review process, ranging from participation to organizing and leading based on the needs of the client

ON-GOING PERFORMANCE

- US Army Task Force Cyber (DAMO-CY) SME III support providing Cyber Planning, Scheduling, Technical, and Organizational Support.
- US Army PEO STRI (PM PCTE) providing Program Management and Technical Support Services (SME III) services as the Program Integration Team.
- Business/Market Development subcontractor to Systematic USA.
- Business/Market Development subcontractor to Mercury Trusted Mission Systems, Inc.

Commercial Contracting, Innovations, and Support to Veteran Entrepreneurs – We are Veteran entrepreneurs ourselves; helping Veteran and Student entrepreneurs and inventors is in our mission statement.

- Product commercialization. We are not angel investors, but we have the knowledge and experience to help you down the path of commercializing your invention.
- Small Business start-up assistance – sometimes the hardest part of making your dream a reality is taking the first step. Let Phase II help you take that step by providing back-office, marketing, and other support to make your dreams a reality.
- Small Business Benefits Packages – Phase II is a licensed provider of benefits packages including 401K, Health, Vision, Dental, and more.
- Workforce Development projects centered on Veteran and Veteran Family transition from Service, training, and community assimilation.

Commercial licensee to George Mason University for a remarkable health IT invention resulting from their Aspiring Scientists Summer Internship Program (ASSIP).
